BACCARAT SCANDAL.

Echoes From Eng-
land's Press.

THE REBELS ASK RECOGNITION.

Intriguing For The Itata's
Arms.Lives Lost on the Raging Red
River

Baccarat Scandal.

By Cable and Associated Press.

LONDON, June 11.—Outspoken news-
papers comment upon the part the
Prince of Wales played in the baccarat
scandal which continues to be the
sensational story of the day in England
and elsewhere. A newspaper reporter who
was present near the Prince of Wales
at Ascot to-day at the race, telegraphed
the Prince was in a very sulky frame
of mind, caused it would appear, by
the adverse newspaper criticism
which has swept and still sweeps over
the heir apparent. The *Religious
Press*, as might be expected, a reli-
gious weekly paper representing all
protestant denominations says, for in-
stance, "The throne rests upon the
foundation of public opinion only.
A few more scandals like that of
Tranby Croft would destroy the founda-
tion and Edward Eighth would
never be crowned." The *British
Weekly* remarks: "The revelations
are enough to sober up the strongest
supporters of the monarchy."

VIENNA, June 11.—A correspondent
of the *Times* says the baccarat
scandal caused a sensation in army
circles on the continent, especially in
countries where the Prince of Wales
was an honorary Colonel in special
regiments.

The *Globe*, this evening, says both
the army and navy feel most keenly
the stigma which is placed upon an
honorable profession by the agreement
entered into between a Field Marshal
and General to maintain secrecy in
regard to gambling, and by "gambling
with youngsters, one of them a subalt-
ern."

CARDIFF, June 11.—At the confer-
ence to-day of the Glamorganshire
Congregational Churches, the con-
duct of the Prince of Wales in the
baccarat scandal was denounced.

Red River Losses.

By Associated Press.

GAINESVILLE, June 11.—The rise in
the Red river is unprecedented. At
Warrens and Sivils Bends, twenty
miles northwest of here, the destruc-
tion is widespread. In these two
bends there were ten thousand acres
of corn, cotton and small grain cul-
tivated by about fifty families. All
these crops were destroyed, most of
the houses swept away and a large
number of cattle, hogs and chickens
drowned. At Yellow Banks ferry
Mr. Burdome was drowned while try-
ing to reach shore in an old ferry boat.

Lives Lost.

By Associated Press.

GAINESVILLE (Texas), June 11.—
Near Leon, Indian Territory, thirty
miles from here, on Red River, the
dead bodies of a man, woman and little
baby were found they having been
drowned during the late overflow.

Wm. Lynn, a farmer residing thirty
miles north of here, on Hickory Creek
was drowned in that stream yesterday
while trying to ford it.

Rebels Ask Recognition.

By Cable and Associated Press.

LONDON, June 11.—A lengthy cir-
cular note addressed to the European
powers by the Chilean provisional gov-
ernment, representing the Insurgent
party of Chili, is published in England
and on the Continent to-day. In it the
powers are appealed to by the Insur-
gents to be recognized as belligerents.

Dividing Africa.

By Cable and Associated Press.

LONDON, June 11.—A dispatch from
Mozambique says officially that Por-
tugal, and the British government,
have settled in an amicable manner
the question of dispute as to the na-
vigation of the Pungwa river, the waters
of which, Portuguese claimed were not
open to the British.

The Jews Desire Palestine.

By Cable and Associated Press.

LONDON, June 11.—In reply to a
Jewish petition, Lord Salisbury prom-
ises to consult the Turkish Ambassa-
dor to ascertain whether British in-
fluence would induce the Sultan to
consent to the Jews settling in Pale-
stine.

Prussian Politics.

By Cable and Associated Press.

BERLIN, June 11.—In the Lower
House Diet to-day Herr Rickert made
a motion to the effect that the govern-
ment should submit to the House the
material upon which Chancellor Von
Caprivi based his recent speech upon
grain duties. The Chancellor opposed
this motion, declaring the inquiries
had been in progress since April.
But, he added, they were confined to
official quarters in order to avoid
creating an excitement. The govern-
ment, he continued, was convinced
there was no distress existing from
the duties now levied on grain, but,
in consequence of the agitation which
had been aroused in regard to this
matter, the government had since
consulted a number of private parties
and naturally could not submit these
reports to the House, and he, as
Chancellor, was not in a position to
mention the names of the persons who
had been consulted.

Herr Rickert made a most sensa-
tional speech, during which he said
it would be found necessary to recall
the man who alone was able to direct
the government. Herr Rickert also
charged the government with endeavor-
ing to silence those who were de-
fending the interests of millions
against the minority. The speaker
said he discredited the government
report about grain.

Potatoes, he continued, had already
replaced bread as food for people, and
they (potatoes) were also placed at
exorbitant prices. His party would
not rest until the duties on grain were
abolished.

Baron Erffa Wernberg insisted that
agriculturists could not dispense with
duties. He denied distress existing
at exorbitant prices. His party would
not rest until the duties on grain were
abolished.

Intriguing For Itata.

By Associated Press.

WASHINGTON, June 11.—Trumbull
had a long interview with Secretary
Tracy, the subject of which cannot be
learned definitely; but there is reason
to believe that he made a strong plea
for the insurgent cause and sought to
have the arms still on the Itata re-
main in the custody of Admiral Mc-
Cann until a judicial determination of
their ownership can be reached. To
a representative of the Associated
Press Trumbull said the condition of
affairs in Chili is one of absolute des-
potism. He (Trumbull) had no hope
of relief as a result of a Presidential
election which takes place in Chili
this month. Balmaceda's adherents
he said comprised all the office hold-
ers and hangers on, but the people as
a whole were opposed to him. Never-
theless in the present state of affairs
Balmaceda will find it an easy matter
to dictate his successor.

Funeral of Sir John.

By Associated Press.

KINGSTON (Ont.), June 11.—The
streets are crowded with people who
had come to see the funeral of Sir
John MacDonald, the late Premier,
and thousands viewed the remains up
to noon to-day.

The funeral procession, which was
a long and imposing one, moved to-
ward the cemetery about 3 o'clock.
The streets here, as in Ottawa, were
lined with immense crowds of people
who had gathered to do honor to the
Premier.

Arrived in London.

By Cable and Associated Press.

LONDON, June 11.—Mrs. McKee,
daughter of President Harrison, and
Mrs. Russell Harrison arrived this
morning and were immediately driven
to the residence of United States
Minister Lincoln, where they will be
guests.

Later in the day Mrs. McKee and
Mrs. Russell Harrison, accompanied
by United States Minister Lincoln
went to Ascot to witness the races.

Darkest Africa.

By Cable and Associated Press.

LONDON, June 11.—Dispatches re-
ceived here from Mozambique an-
nounce great excitement prevails there
owing to the fact that Chief Gouveia
with 4,000 followers have revolted
against the Portuguese authorities in
favor of a British Protectorate. Chief
Gouveia rules over the territory be-
tween Zambesi and Pungwa rivers.
The Portuguese authorities are hastily
despatching troops to quell the revolt.

Connecticut Muddle.

By Associated Press.

NEW HAVEN, June 11.—The reap-
plication of Judge Morris to resign as
Governor Bulkeley, in the quo war-
rant suit was filed to-day. It is a
general denial of all allegations of facts
made by Governor Bulkeley apper-
taining to election returns and denies
the right of the general assembly to go
behind the returns.

Bishop Knight Buried.

By Associated Press.

MILWAUKEE, June 11.—The remains
of Bishop Knight were laid to rest in
the Forest Home cemetery this morn-
ing. The funeral service was held at
the Episcopal Cathedral and was con-
ducted by Bishop McLane.

PROHIBITION PARTY.

Presents a Promising
Platform.

GERMAN STEAM SHIP STRIKE.

Presidential Pardon And Ap-
pointments.Forest Fires Continue in New
Brunswick.

Prohibition Party.

By Associated Press.

SPRINGFIELD (O.), June 11.—The
Prohibition State Convention was
called to order this morning. Tem-
porary chairman Macklin was made
permanent chairman. The platform
denounces the liquor traffic in the us-
ual terms; demands a revision of the
immigration and naturalization laws;
declares for women suffrage; de-
nounces speculation in margins; re-
commends pensions to soldiers and
sailors and their widows and orphans,
graded according to the time of ser-
vice; recognizes gold, silver and cur-
rency as the proper circulating me-
dium, issued in sufficient quantities
to meet the demands; demands the
reclamation of unearned land grants
and that no more of the national do-
main be granted; declares the tariff
should be assessed on goods from such
countries as tax American products;
and that the expenses of the govern-
ment should be paid by an income tax.

California Hains.

Special to the GAZETTE.

NEVADA CITY, June 11.—It rained
all night and shows no signs of abating.
The storm is extremely beneficial
to many young orchards and vine-
yards, but disastrous to grain and hay.
AUBURN, June 11.—It commenced
raining last night and has continued
steadily since. Late cherries will be
greatly damaged. A large amount of
hay is down and will be spoiled. Some
early grain in the western portion of
the county will be destroyed.

SAN FRANCISCO, June 11.—Light
showers of rain have been falling since
last evening. The precipitation
amounts to seven-hundredths of an
inch. Rain is reported from over fifty
railroad stations in California, varying
from two-hundredths to one and
twenty-five-hundredths of an inch.
Forecast, light rains.

Chili Rebellion.

By Associated Press.

WASHINGTON, June 11.—The Chilean
Legation to-day received a telegram
from Chili saying the naval vessels of
the government pursued the insurgent
vessels in Tarapaca. The Con-
dell, Lynch and Imperial have com-
bated Pisagua and Iquique without
managing to bring out the insurgent
ships, which are in a very bad con-
dition. All the veteran sailors have
deserted and offered their services to
the constitutional government.

To Tap Eagle Lake.

Special to the GAZETTE.

SUBANVILLE (Cal.), June 11.—Work
has been commenced on the outlet
which is to tap Eagle Lake in Lassen
county and convert the lake into a
reservoir which will irrigate a large
body of sagebrush land in Honey Lake
Valley. Eagle Lake has an area of
28,000 acres and lies in the Sierra
sage pine belt at an altitude of 5,000
feet, with no outlet. The enterprise
is backed by ample local and San
Francisco capital.

Diamond Robbery.

By Associated Press.

NEW YORK, June 11.—The fact has
just come to light, says a morning
paper, that the mammoth establish-
ment of Hilton, Hughes & Denning
was entered last Friday night and
\$10,000 worth of diamonds in the jew-
elry department was stolen. The fact
was kept secret with the intention of
catching the burglars but so far the
police have been unable to do so.

Steamship Strikers.

By Cable and Associated Press.

BREMEN, June 11.—Serious rioting
occurred here to-day upon the part of
the firemen of the North German Lloyd
Steamship Company, who are on a
strike. The police charged the mob
with drawn swords and a desperate
fight took place before the strikers
were subdued. A number of strikers
were injured and several arrests were
made by the police.

President's Pardon.

By Associated Press.

WASHINGTON, June 11.—The Presi-
dent granted a pardon in the case of
Charles L. Terry of Washington, con-
victed of facilitating the transporta-
tion of opium into the United States.
The President to-day appointed Jes-
sie W. Matott Postmaster at La Grange,
Oregon.

The Fire at Honolulu.

Special to the GAZETTE.

SAN FRANCISCO, June 11.—The
steamer ship, Mariposa, from Australia
via Honolulu, arrived to-day.

The steamer brings fuller particu-
lars of the government warehouse fire at
Honolulu June 2nd. Several
workmen had been soldering the leak-
ing kerosene tins at a shed a short
distance from the warehouse which
was used solely for the storage of oils,
and the employee in moving the solder-
ing furnace, used a handful of waste,
taken from the floor of the shed,
which happened to be saturated with
oil. The fire ignited the shed and
spread to the warehouse which was
soon a raging mass of flames. The
firemen were unable to get water
from the plugs, and the explosion of
a number of drums of gasoline, of
which there were several hundred in
the warehouse, drove them to a dis-
tance. The fact that the warehouse
was constructed of brick and iron with
but little woodwork, and that there
was scarcely any wind, saved that
portion of the town from destruction.
The greater part of oil, of which there
were thirty-five thousand cases of
total value at Honolulu retail prices
of three hundred thousand dollars,
was owned by the Standard Oil Co.
The rest was divided among several
holders. There was also about two
thousand gallons of gasoline in the
warehouse, part of which was saved.
Insurance, small.

Omaha Bridge Case.

By Associated Press.

OMAHA, June 11.—The trial of the
great bridge case of the Rock Island
road against the Union Pacific opened
this morning in the Federal Court.
The entire morning session was con-
sumed by Thomas F. Withrow, Gen-
eral Solicitor of the Rock Island, in
presenting a statement of the facts in
the case.

Hurricane in Galicia.

By Cable and Associated Press.

BUDA PESTH, June 11.—A terrific
hurricane, causing much damage,
swept over eastern Galicia. During
the storm an entire forest was partly
uprooted and the towns of Podkamin
and Prinkwa suffered considerably.
Several people were killed outright,
and numbers were injured by falling
debris.

Bank Report Ready.

By Associated Press.

WASHINGTON, June 11.—Lacey,
Comptroller of the Currency has com-
pleted the report in regard to the Key-
stone National Bank of Philadelphia
and will submit it to the President,
who will transmit it to the Mayor of
Philadelphia as a response to the res-
olutions of the Common Council.

Forest Fires.

By Associated Press.

ST. JOHNS, June 11.—Over a hundred
miles of country is already devastated
by fire, which is still spreading. The
result is felt severely by settlers and
lumbermen, as many valuable timber
areas are swept away.

TELEGRAPHIC BRIEVITIES.

At London the Behring sea bill to-
day received the royal assent.

At Baltimore, to-day, July thirtieth
was decided upon as the day for hold-
ing the Democratic State Convention.

At Boston the International Typo-
graphical Union Convention to-day
elected W. B. Prescott, of Toronto,
President.

From London there is reported an
outbreak of pleuro pneumonia among
cattle in York. Local authorities have
ordered 200 head killed.

The Atchison April statement, in-
cluding the St. Louis and San Fran-
cisco railroad, shows the net earnings to
be \$958,000, an increase of \$19,000.

The La National of Paris to-day an-
nounced that DeLesseps will be pro-
secuted for misleading investors who
subscribed money for carrying on the
work of the Panama Canal.

At the Convention of the National
Association of Furniture manufactur-
ers to-day at Boston, the report of the
Special Committee on the World's Fair
favoring an exhibit, was accepted.

The Navy Department at Washing-
ton is not informed of any quantity of
durable goods smuggled into this
country by officers of the United States
vessels, Omaha and Swarta, as re-
ported from San Francisco.

Escape of Prisoners.

The report that prisoners have been and
are constantly escaping from that malig-
nant gaoler, liver complaint, is fully cor-
roborated by the self-liberated captives.
Bostetter's Stomach Bitters are, they say,
the means by which they get rid of their
fetters, few altogether avoid the bondage of this
illness, and few are unacquainted with its
signs, viz.: pain through the right side
and shoulder blade, furred tongue, and
yellowness of the eyeballs and skin, sour
breath, headache, dyspepsia and con-
stipation. Bostetter's Stomach Bitters
put a prompt period to these, brings them
to a full stop in short order. Whether the
trouble is chronic or temporary, this medi-
cine is equally effective, regulating the
liver and bowels thoroughly. It is likewise
a sovereign remedy for rheumatism, kidney
complaint, malaria, heartburn and nerv-
ousness.

Sickness Among Children.
Especially infants, is prevalent more or less
at all times, but is largely avoided by giving
proper nourishment and wholesome food.
The most successful and reliable of all is the
Gail Borden "Eagle" Brand Condensed Milk.
Your grocer and druggist keep it.

NEVADA STATE UNIVERSITY.

Graduation Exercises of the Com-
mercial Department Class of '91
Successfully Concluded Yester-
day.

The Commencement exercises of
the Commercial Department of the
Nevada State University Class of '91
were held at McKissick's Opera House
last night. The auditorium was filled
to its full seating capacity and the
balcony also, while the boxes were re-
served for distinguished visitors. In
the latter were seen Governor Colcord
and wife, Mrs. S. A. Jones, Miss Emi
Fish, Mr. and Mrs. W. S. Bender,
Miss Rachel Fredrick and others. On
the stage, which was set for a library
scene, were President Jones, Pro-
fessors H. K. Clapp, W. McN. Miller
and Robert Lewers, and Regents H.
L. Fish, J. W. Haines, E. T. George
and Attorney-General Torreyson, and
the nine graduates of the Class of '91.
The GAZETTE's space is limited to-
day and hence it cannot publish the
essays or devote necessary space for a
critical review, but in general terms
it gives the exercises summarized.

FREDERICK A. BARLOW'S
Band of seven pieces opened with an
overture, and as usual, then and af-
terwards, furnished a rare musical
treat to the very appreciative audience.
After the overture Roy L. Robinson
took the stage and delivered in a mas-
terly manner an essay on "Immigra-
tion" that won for the young man
well merited applause.

Miss Marie Vanhook then pro-
nounced an essay on "Success in Busi-
ness," in a well modulated tone and
an easy manner, free from any affecta-
tion.

At its close the orchestra rendered
a pot pourri, after which Miss Ella
Tilda Malone gave an essay entitled
"As We Sow We Shall Reap." It gave
evidence of mature thought and care-
ful digest of the subject and proved
her a careful student and worthy of
her diploma.

Charles A. Goe then followed with
an essay entitled "Sing a Song of Six-
pence," which was well received, de-
spite the low tone of voice, which pre-
vented some of its points from reach-
ing those in remote seats.

When he concluded Professor H.
K. Clapp presented Miss Rachel Fred-
rick, who sang by request, with or-
chestral accompaniment, the song
"Always True." Her voice showed
the most perfect culture and her ex-
pression that of a true and devoted
artist, and, as usual, whenever she ap-
peared, won a warm round of applause.

Then Miss Florence M. Nash gave
an essay entitled "Influence of Kind
Words." It was most gracefully
spoken and won warm plaudits.

The orchestra then played a choice
selection of popular airs in medley.

After which Thomas C. Buttery
delivered an essay entitled "Charac-
ter," and presented his thoughts in an
earnest manner that illustrated his
subject most forcibly.

Then Miss Sadie F. Malone gave an
essay from memory, without halt or
hesitation, entitled "The Noble Gifts
of Our Country," and the theme, well
chosen, was presented with patriotic
expression.

After she concluded Clarence E.
Titus delivered an essay entitled "Edu-
cation" in a manner that demon-
strated how well the young man has
profited on his theme during his at-
tendance at the University. After
this the orchestra gave another choice
selection that was listened to with ap-
preciation. Then Miss Cora E. Light
gave an essay entitled, "The Pathway
of Life," and it was received with
hearty applause, as the young lady
recited from memory and showed an
earnest and independent thought and
manner throughout. Each graduate
received friendly tokens in bouquets
of flowers at the conclusion of each
essay, and some received special
favors, notably Miss Florence M.
Nash, in some handsome floral pieces.
When the program was finished Presi-
dent Jones made a few apt re-
marks to the graduates and then
presented each with the diploma con-
ferred upon them in evidence of the
faithful completion of the course of
study prescribed. When this was
concluded the orchestra played, the
audience was dismissed and many ad-
vanced to the stage and congratulated
the members of the Class of '91, for
the honors received. This makes the
third class of graduates from the Com-
mercial Department that have finished
their work in the last three years.

The first in 1888, consisted of five
graduates; the second in 1890 was a
class of ten, and this one for 1891 of
nine, makes a total of twenty-four for
the time named. Hence it can be
safely said that the institution is
doing good work and averages with
the best in the land.

Grand Representatives.
L. L. Elrod, T. R. Hofer, and J. P.
Meder of Carson, W. W. Rogers of
Dayton, J. A. Conbio of Virginia, and
Dr. A. B. Brierly, Frank Barr, Benja-
min Rosenthal and J. H. McBride of
Hawthorne arrived in Reno last night
to attend the Grand Lodge of Knights
of Pythias which convenes to-day.

BORN.

DRURY—In Sacramento, June 10, 1891, to the
wife of Wells Drury, twin sons.

Ion Pipe.

I HAVE A QUANTITY OF SECOND HAND
15, 22, 44 and 40 inch, No 12 and 14 iron
pipe made from the best quality of iron for
sale cheap and parties having use for it will
find it to their advantage to give us a call.
We can afford to sell it cheaper than wooden
pipes can be constructed and call the farm-
ers attention to this fact. For further par-
ticulars, address E. H. Levett, Susanville,

5 O'CLOCK EDITION

The Board of Trade held another important meeting last evening, when the question of forming irrigation districts under the law as passed by the last session of the Legislature was discussed at length. President Newlands urged upon the citizens living in the districts that can be irrigated by the waters of the Walker, Carson, Humboldt and Truckee to move the matter of reclamation. He took the ground that Nevada had passed through its greatest era of depression and that its future prospects were brighter than ever before in the history of the State. Mr. Newlands' encouraging words inspired every one present with the truthfulness of his remarks. The GAZETTE has labored long and zealously in the work of State development and believes that the day is not far distant when Nevada shall reap her reward. There can be no question but what the forming of irrigation districts within our borders will tend largely to stimulate capital to invest in our bonds, and it is a matter of such vital importance to the people that it should not be neglected in the slightest degree. Prosperity depends upon the people themselves and never comes to the laggard. Let us then move as one man, and take steps to organize ourselves into reclamation districts, put our bonds upon the market and invite the attention of capital to our great possibilities in an agricultural point of view. The mining industry will take care of itself, but the agricultural question must be nursed for a season until the people of the world become educated up to the fact that they can come here and be marvelously prosperous as tillers of the soil if they exercise the same thrift and economy that farmers do in all parts of the world. The GAZETTE takes this occasion to urge upon the people of the State, and particularly of Washoe county, to be up and doing, and hasten the day that shall see the banner county of the State, the prosperous and happy home of fifty thousand people. Why delay?

When we all know that to accomplish an object, a move must be made. Procrastination is the thief of time, and the GAZETTE hopes to see the people of this county take hold of the question intelligently and push it to success.

The project is now up in New York for a joint guarantee by the United States and Mexico of bonds to insure the completion of the Tehuantepec Canal and Ship Railway. The Nicaragua Canal is the more advanced and promising undertaking. When that is assured it will be time enough to talk about Government aid to the Tehuantepec scheme. The plan of railroading great freight steamers and sailing vessels across the country is still largely a matter of theory. The ship railway across the Isthmus of Chignecto, by which vessels will pass from the Bay of Fundy to the Gulf of St. Lawrence, avoiding the long voyage around Nova Scotia, is in course of construction and will probably be ready for operation this summer, but it is on a comparatively small scale, both as regards the length and character of the route and the size of the vessels that will use it.

A few years ago Hawaii discovered that it was getting too many Chinese, and adopted a restrictive measure. Now there are more Japanese than Chinese in the kingdom, the proportion being 18,000 to 17,000, and more Japs coming. This will serve as a hint to our own people. Japan with only 147,656 square miles area has over forty million inhabitants, and they have already begun to emigrate in earnest.

KERN county, Cal., farmers are organizing a system of coyote drives to rid the stock ranges of these pests. After they have cleared out the coyotes they will next have to get up jack rabbit drives.

BOARD OF TRADE.

The Forming of Irrigation Districts Canvassed.

An Interesting Meeting Held Last Night.

A meeting of the State Board of Trade was called by President Newlands for last evening at which he stated the object to be, the consideration of the question of forming districts for water storage under the new law. There were present besides Mr. Newlands, Hon. Theo. Winters, W. O. H. Martin, L. D. Folsom, C. C. Powning, Hon. W. E. Sharon, R. L. Fulton, Allen C. Bragg and Ben Leavitt.

PRESIDENT NEWLANDS SAID Since the Board of Trade was organized it has steadily agitated the development of the State, through measures intended to increase its farming population, promote enterprises, and to advance the storage of water and irrigation. It has already accomplished much in this direction in the way of instructing the people with reference to the resources and capabilities of the State. It has

PRODUCED PRACTICAL RESULTS In the storage of water in Tahoe and Donner lakes, and the exploration of reservoir sites upon the Truckee, the Carson and the Humboldt rivers.

At the last session of the Legislature, a bill drawn up under the auspices of the State Board of Trade, patterned somewhat after the Wright Law of California, but better adapted to our conditions, was introduced, and was steadily pushed by its authors until with certain modifications it was passed and received the signature of the Governor.

This bill in substance provides for the organization of irrigation districts which may embrace lands in one or more counties.

The main object of the formation of irrigation districts will be to maintain a uniformity of flow in each of the main rivers of the State by means of storage reservoirs, which will hoard the water until it is most needed.

The taking out of the water and its application to arid lands can for the present be safely entrusted to private enterprise; and private enterprise will certainly undertake the task if it can be assured that the flow of the stream will be kept steady and uniform by means of storage.

The time has now come for action under this law. We find our sister State, California, actively engaged in the formation of irrigation districts. Eleven districts are in process of formation, and the total bonded indebtedness about to be created will exceed eleven million dollars. Public attention is everywhere being called to the matter; the people are moving; the newspapers are active, and California seems to be upon the eve of a great development, the wave of which may reach Nevada, if she now takes advantage of her opportunities.

The first question that arises is whether the irrigation districts each will take in the entire river, or whether the lands capable of being irrigated by a given river shall be divided into several districts. My judgment is that, as a rule, the irrigation district should comprise

EACH RIVER In its entirety, and the lands near it to be benefited in any way by irrigation.

All classes of property, farming, town, milling and mining, within its reach, should be the burden of taxation.

The possibilities of the Truckee and the Carson rivers, with reference to storage, have already been surveyed and accurately ascertained. Preliminary surveys have been made upon the Humboldt by William Hammond Hall, under the authority of the Central Pacific Railroad, and a favorable report made. No minute examination has been made of the Walker river, but the information is unqualified that it possesses great facilities for the storage of water. The practical benefit of immediate action in these lines can not be doubted. Already litigation exists on the Carson river in which the parties will probably expend in lawyers' fees, and the expenses of litigation, more than one half of the amount necessary to keep the river full of water during the most trying times. And yet, whichever side wins that litigation the flow of the river will not be increased. If the farmers win the litigation, the mining and milling interests will be seriously crippled; if the milling and mining interest wins it, the farming interest will be seriously crippled; by storage both interests will be protected and maintained. So also on the Humboldt river.

A SERIOUS LITIGATION Now exists between large land owners, who seem to be expending a considerable sum of money; the litigation has only begun and will probably continue for years; whichever party wins the flow of the water will not be increased, and not an additional acre of land can be put under cultivation. This same amount of money expended in storage would accomplish great results, and settle pending litigation, and would put under cultivation a large amount of arid land now uncultivated.

It will take some time of course to perfect the proceedings leading up to the actual construction of the works necessary for storage, but it is important that the work should be commenced now in order that it may be the sooner completed. If any defects should be found in the existing law an opportunity will be given for remedying it at the next Legislature.

GOVERNOR COLCORD Gov. Colcord was called upon and said that he indorsed most fully the remarks made by Mr. Newlands. He knew that we had a good and fearless leader in the cause of State development. He was satisfied that a beginning might be made this year, for he had not talked with an individual who opposed the irrigation scheme, but he found many like warm on the subject. He said that the question he had been met with was, who is going ahead with the work, and thought that in Mr. Fulton, the Board had

made a wise selection. He thought the main opposition to the question of forming irrigation districts would come principally from men claiming prior rights on the streams of this State, but if they could be convinced that there would be a sufficient supply, that opposition would be at once silenced. In conclusion the Governor said the Board of Trade could count on his aid and most hearty cooperation in every way that laid in his power.

Mr. Newlands called upon Manager Fulton to give some explanations upon the working of the law. The latter said the law simply gave the people the right to form districts or not as they saw fit, and the same authority to issue bonds that

EACH SCHOOL DISTRICT Now has. The petition to organize must be signed by a majority of all taxpayers within the lines of a proposed district who must put up a bond to pay expenses if the election is against forming a district. Two-thirds of the votes must be in favor of forming such district. If formed it will be divided into five parts from each of which one supervisor will be chosen. These five will constitute the board of Control and manage all of the business. If bonds are issued another election must be held, so that even after a district is formed there can be no debts acquired without the consent of the taxpayers. Each district thus manages its own affairs entirely in its own way and for its own need.

Mr. Folsom inquired what would be needed on the Truckee?

Mr. Fulton said that a hundred thousand dollars would secure property which would cost far more if allowed to be scattered and some of it never could be got again. A site on Little Truckee owned by Wheeler Mayberry, Evans and others was better than Donner Lake. It was wanted by Sierra Valley people and if they got it it would be worth a million to them some day. Donner Lake would run 10,000 inches for 40 days and

SECURE ALL THE LAND Now under the ditches from drouth.

It would buy Sardine Valley, which pays good interest, part of Henness Pass reservoir, the best place in the mountains outside of Tahoe, and a dam site on the Truckee just below the outlet of Tahoe, where a dam could be built cheaply if necessary. The district including the Truckee from the State line to the edge of Truckee Meadows, including the lands north and south, would have three million taxable property. The interest would be \$6,000 a year and the tax two mills on the dollar. So that a man who has \$100,000 of property would pay \$20 a year. On the Carson a dam could be built for less than \$200,000 at Long Valley. It would reclaim 20,000 acres in Douglas county, keep the quartz mills running the year around and be used on lands in Lyon, Ormsby and Churchill counties. The district could be made up of three millions and the tax would be three mills on the dollar. One district or more on the Humboldt would secure Paradise Valley, Lovelocks and other large tracts from drouth.

The State ought to survey these reservoir sites and the Board of Reclamation Commissioners should have the effort for the storage of water and the reclamation of arid lands.

The Legislature repealed the law appropriating it and left them powerless.

IT IS A SHAME that both the general government and the State government refuse to give the least encouragement to this work, upon which the very life of Nevada depends. Upon motion of Mr. Kelly the following resolution was adopted:

Resolved, That the Manager of the State Board of Trade be instructed to call the attention of the people residing on the Truckee, Carson, Walker and Humboldt rivers and their tributaries, to the act recently passed by the Legislature for the formation of irrigation districts, and to urge upon them the importance of taking immediate steps to avail themselves of the benefits of that act by co-operating effort for the storage of water and the reclamation of arid lands.

The Manager offered the following: Resolved, That the attention of our fruit growers be called to the necessity of making a vigorous struggle against the codling moth, wooly aphid and other pests, and to the fact that the State University has issued bulletins describing them and the mode of treating them.

He said it was impossible to get a decent apple at Ogden because the people had allowed the valley to be overrun, and the same would happen in Rustle Lake if the people do not hustle.

A discussion of the question of back rates on the railroad was participated in by all present, and it was decided to await the decision of the Inter-State Commerce Commission in the case of Spokane vs. Fresno and other points.

Mr. Ben Leavitt of Lassen county, Cal., was present and said the Stockdiddle Company has spent \$32,000 Secret, \$40,000, Hutchinson & Leavitt, \$80,000. The latter sold water for 10,000 acres to Moore of Wisconsin, who is trying to settle it up. There are 200,000 acres of fine land. Reservoirs now built will water 100,000 acres. The land there is mostly Government. Fox & Alexander have spent \$33,000 at Round Valley. Albert Gallatin \$20,000 at Horse Lake, and Merrill & Marker \$30,000 at Eagle Lake.

There will be a meeting on next Saturday.

Its Excellent Qualities. Commend to public approval the California liquid fruit remedy, Syrup of Figs. It is pleasing to the eye, and to the taste, and by gentle action on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

A Common Sense Remedy. In the matter of curatives what you want is something that will do its work while you continue to do yours—a remedy that will give you no inconvenience nor interfere with your business. Such a remedy is Alcock's Famous Plasters. These Plasters are not an experiment, they have been in use for over thirty years, and their value has been attested by the highest medical authorities, as well as by voluntary testimonials from those who have used them.

Alcock's Famous Plasters are purely vegetable and absolutely harmless. They require no change of diet and are not affected by wet or cold. Their action does not interfere with labor or business; you can toil and yet be cured while hard at work. They are so pure that the youngest, the oldest and most delicate person of either sex can use them with great benefit.

MISCELLANEOUS.

Pimples.

The old idea was that facial eruptions were due to a "blood humor," for which they gave potash. Thus the old Sarsaparillas contain potash, a drastic mineral, that instead of decreasing, actually creates more eruptions. You have noticed this when taking other Sarsaparillas. It is however now known that the stomach, the blood creating power, is the seat of all vitiation or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate. A short testimonial to contrast the action of the potash Sarsaparillas and Joy's. Mrs. C. D. Stuart, of 400 Hayes St., S. F., writes: "I have for years had indigestion. I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."

Joy's Vegetable Sarsaparilla

Largest bottle, most effective, same price. For sale by S. J. Hodgkinson, Reno.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head-aches and fevers, and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, its many excellent qualities commend it to all. It is for sale in 50c and \$1 bottles by all leading druggists.

MANUFACTURED ONLY BY THE CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N.Y.

Pure Blood

Is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, skin eruptions, and all other blood poisons which attack the blood and undermine the health. It also builds up the whole system, cures dyspepsia and sick headache, and overcomes that tired feeling.

Scrofula Sores. "My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

Can Walk as Well as Ever. Hood's Sarsaparilla is the best medicine I ever saw for scrofulous humor. It has done the work more than satisfactorily." WILLIAM BARDEN, Rockdale, Milan County, Texas.

Hood's Sarsaparilla Sold by druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

KNIGHTS OF PYTHIAS.

Friendship, Charity and Benevolence.

Meeting of the Grand Lodge of the State of Nevada in Reno To-Day.

The meeting of the Grand Lodge for the State of Nevada of the Knights of Pythias calls from the GAZETTE more than passing mention, and in connection with the pictures of the Grand Officers presented to-day, a short review of the order is considered pertinent. Space does not permit any extensive review, but the salient facts are herewith given. This is only the XXVIIIth Pythian Year, as the order was founded on the 19th of February, 1864. The head of the order was Justus H. Rathbone, who organized Washington Lodge No. 1 at the National Capital during the last year of the war of the rebellion. The banner of blue bore the mystic letter "F," the sign of friendship, displayed at a time when the nation was in the throes of war. Afterward in a field of yellow was added the letter "C," and then a field of red with the symbol "B," and all indicating the ruling principles of the order.

FRIENDSHIP, CHARITY AND BENEVOLENCE. With the start then made, though few in numbers and only a little while ago, not yet a lifetime of man, the order has grown with marvelous rapidity, and now takes rank with the greatest beneficiary orders of the world. Its lodges are found established in every State and Territory of the Union, in the British Dominion and in the isles of the sea. It numbers thousands in its fold; it has paid nearly six millions of dollars to widows and orphans of its deceased members and provided for the payment of more than fifty millions more. And yet there is no wonder that it has flourished, for the order is founded on true principles that appeal to the heart of man, and which makes better men of every one that joins it. The first principle of the order is exemplified in the friendship of

DAMON AND PYTHIAS. It has been told so often that it seems like a myth, a historical fact, that all that is claimed. It was in the 38th year before the Christian era, that Dionysius gained the name of the "Tyrant" of Syracuse and condemned Damon to death, for striking the Prince who was wildly doting through the crowd. To allow Damon to see his family and say his last farewells, Pythias took his place in prison agreeing to forfeit his own life if Damon failed to return in time for execution. Damon was delayed in his return, but not through any fault of his. A faithful servant, knowing the compact between Damon and Pythias, slew his horse to save his life, but he would not accept this chance to escape, and hastily mounting another horse, that appeared to have followed with faithful purpose, he hastened on his return. He reached the spot of execution just as the executioner was ready to strike Pythias, the faithful horse falling dead as

DAMON SPRANG TO THE BLOCK. Then Dionysius, the Tyrant, cried "Hold," and commanded an audience with Damon and Pythias, and asked why Pythias risked his life, and he answered, "I am the friend of Damon."

Said Dionysius, "What is to be a friend?"

"Friendship is faith, O King. There is no fear where is security."

"Nor doubt when duty calls."

"And thou, great Damon, what brought thee dying on the scaffold to greet grim death so grandly?"

"Why, Pythias, surely. He who is my friend,—but king, why question? Honor, that unpolluted spring of the true soul, urges a man against all obstacles to do and dare what will and nature may. Fear shall not cloud its holy face of light. Virtue and justice, benevolence and faith, charity and constancy, these dwell together in the mind of friendship."

And which, O King, shall nobility neglect? If thou wouldst question friendship, seek its core of brotherly love, fraternity of interest and union of feeling."

Then answered the King, "Pythias, thy friend doth head thee in this race. Victorious both, yet hath he most glory, for, trusting thy friend, thou tookest the chance of death, but trusting only Fate, he faced its certainty. Equal, yet still unequal as must be to the end of time each different deed, both, to my judgment, deserve the golden mystic. Ennobled by my will, among thy peers peerless, live henceforth in joyous rivalry of kindness. Be pardoned and go free! Thou hast taught me that the greatest of the virtues are embodied in the symbol of thy love for one another. Friendship, Charity and Benevolence, have found in thee their living types, and may thy wise example spread as are sent the living fires of our temple to the colonies of Syracuse. May the hearts of men turn to thee the warm fullness of affection, for from thee, like incense will expand that brotherhood of man, of which time shall be the builder. Would that Dionysius might add one lead to the mystic wreath of worthiness with which thy brows are crowned."

Then it was that the seeds of human kindness fell on the good ground of noble manhood, and growing strongly, penetrated the heart of a mercenary king, only to blossom forth from history like a fruitful flower, scattering its perfume broadcast in the world and drawing men together by the soft embrace of universal suffrage. 'Twas but a ripple, but a ripple will shake the universe if given time."

On this story of unswerving friendship is founded the principles of Pythian Knighthood, and the beneficent influence of the order is now felt wherever christianity dwells. It num-

bers the best men in our midst, but who take their parts so modestly that their presence is only felt when the call of distress is heard. Brave Knights! The world has use for you.

The Grand Lodge was called to order at 12 o'clock by Grand Chancellor Benjamin Currier, an excellent portrait of whom is herewith given.

The Hon. Benjamin Currier.

Mr. Currier was born at Ferrisburg, Addison county, Vermont, September 27, 1834. The early part of his life was spent in toil upon a rocky farm. In 1852 he entered the High School of that district, continuing in attendance two years. At the age of 21 he emigrated to Illinois, where he resided several years. During this time he entered upon the study of law, varying it with the occupation of teaching school. In the spring of 1859 he was seized with the gold fever, and packing all his worldly goods into an ox wagon, he and his young wife started across the plains for Pike's Peak, Colorado. Not realizing all he expected in that region, he continued his journey west and arrived at Carson City in September of that year. His first few years in this State were spent in the occupation of carpentering, running a stage station and studying law. In 1863 he was elected a member of the Territorial Legislature; in 1864 he was appointed County Commissioner for Churchill county, and in the fall of the same year was elected District Attorney and admitted to the bar. At the general election in 1866 he was elected District Judge of the Fifth Judicial District, comprising the counties of Churchill and Nye, and was re-elected to the same office four years later. At the expiration of his last term he resumed the practice of his profession; in 1876 he was elected District Attorney for Nye county and re-elected in 1878; in 1882 he moved to Nevada in the spring of 1885, taking up his residence at Hawthorne, Esmeralda county, and in 1886 was elected District Attorney for Esmeralda county; in the summer of 1890 he moved to Reno where he now resides. He became a member of Esmeralda Lodge No. 16, Knights of Pythias soon after taking up his residence at Hawthorne, and through all the dark period of Esmeralda's existence stood firmly by the wheel and guided her to the fraternal haven of prosperity. Not only has Judge Currier received at the hands of the people at large political preferment, but also has been the recipient of marked honors from both the grand fraternal orders, the Odd Fellows and Knights of Pythias. In 1888-89 he represented this State in the Sovereign Grand Lodge of Odd Fellows. During the year the Grand Lodge of Knights of Pythias elected him Grand Prelate, and in 1889 chose him for Grand Vice Chancellor and in 1890 elected him Grand Chancellor of this jurisdiction, which position he now holds. Judge Currier is a man of marked ability, and with a Pythian record that has made him the recipient of the many honors thrust upon him.

The Grand Lodge of the Knights of Pythias of the State of Nevada is not without men of ability and social standing from all the walks of life, for in George G. A. King, Grand Vice Chancellor, they have a representative of whom the lodge can justly feel proud.

Mr. King was born in Pennville, Monroe county, New York, March 28, 1852, and came to Nevada in 1866, where he has since resided. He was educated in Santa Clara, Oakland and in the Pacific Business College of San Francisco. He became a member of Lincoln Lodge No. 6 in 1877, and in July of that year was elected Prelate of his lodge and was elected Vice Chancellor in 1878. In July 1878, he was elected Chancellor and served in that capacity for six months, when he took the chair of Past Chancellor; in July of 1879 he was elected Trustee; in January 1881, Master-at-Arms; in January 1882, Master of Finance; in January 1884, Chancellor Commander; in 1886 he was elected Trustee; in 1888 he was elected Master of Exchequer, which office he now holds. His lodge elected

Geo. G. A. King.

him representative to the Grand Lodge in 1879, and he has been elected as their representative at every session since; in 1880 the Grand Lodge elected him Grand Prelate, and in 1887 he was elected District Deputy Grand Chancellor, and at the session of 1889 he was again elected Grand Prelate; in 1890 he was chosen as Grand Vice Chancellor, which position he now holds. Brother King has assisted in instituting Lyon Lodge No. 12, Harmony Lodge No. 13, and Pyramid Lodge No. 19. He is a charter member of Comstock Division No. 3, Uniform Rank, so it will be seen that Mr. King has worthily won his spurs.

In the selection of the Grand Keeper of Records and Seals the Grand Lodge has shown its wisdom in choosing A. B. Stoddard.

A. B. Stoddard.

Mr. Stoddard was born at Norfolk, Conn. He came to California in 1861 and to Virginia in the spring of 1871. He was one of the founders of Lincoln Lodge No. 6 organized March 29, 1874 and was elected Prelate for the term commencing July 1st, 1876. He passed the chairs and became a Past Chancellor July 1st, 1877, and was elected a representative to the Grand Lodge at its next annual session held at Reno on September 24th, 25th and 26th of that year. He was re-elected each year in the consolidation of Lincoln Lodge with Nevada Lodge No. 1, which occurred September 14, 1886, when he became an active member of No. 1, representing that lodge at every session of the Grand Lodge up to the present time. He was appointed District Deputy under Grand Chancellor W. H. Davenport, and served in that capacity under Grand Chancellor J. E. Johnson. He has been Keeper of Records and Seals of his lodge for nearly ten years. At the session of the Grand Lodge held in 1878, Mr. Stoddard was elected Grand Prelate, and in 1889 he was elected Grand Keeper of Records and Seals and was re-elected at the next session in June, 1890. Brother Stoddard is a dentist by profession and has been practicing at Virginia City for the last ten years. He is an ardent member of the order and takes deep interest in everything tending to promote Pythian love, charity and friendship.

Grand Master of Exchequer, H. J. Thyes, is another member of whom the Grand Lodge of the noble order should be justly proud.

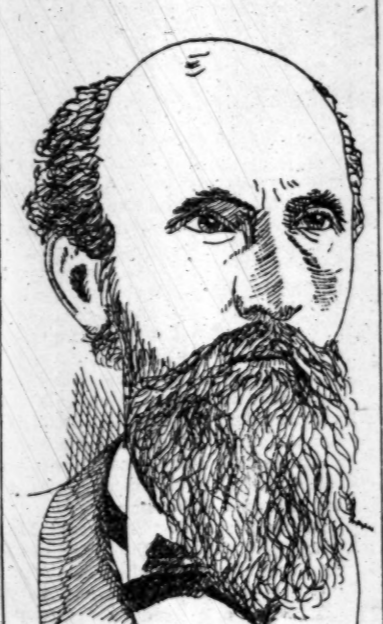

H. J. Thyes.

Mr. Thyes was born in Hoboken, New Jersey, April 5, 1855. He with his parents came around the Horn and landed in San Francisco in the year 1858. He was raised and educated in that city. While at Head's Business College he was tendered and accepted a position as time and book-keeper for the contractor, Dennis Jordan, on the New City Hall, which position he filled from 1872 to 1874, until the contract was completed, when he was engaged by E. Cheliovich & Co. as traveling salesman, holding that position until April, 1878. Then coming to Reno, he assumed the management of the Wine House, which he carried on very successfully until the 1881, when he resigned and commenced business on his own account, continuing to the present time, and has been moderately successful. He became a member of Amity Lodge No. 8, K. of P., at Reno in 1884, passed through the chairs creditably and was appointed District Deputy Grand Chancellor in 1884, which position he filled for two terms. In 1889 he was elected Grand Master of Exchequer of the Grand Lodge K. of P. of Nevada, and re-elected in 1890, making this his second term in that important and responsible position. He is also a charter member of Reno Division No. 2, U. R., K. of P.; has served two terms as Lieutenant and one as Captain of the Division. He is now and has been Secretary and Treasurer of Section No. 290, E. R., K. of P., since 1883. Mr. Thyes is a great friend of every true Pythian and stands to-day an honored member of the fraternity.

Supreme Grand Representative H. C. McMillen is last, but by no means least among the Knights, who worthily wear their spurs.

Mr. McMillen became a member of Lincoln Lodge No. 6, Feb. 27th, 1873. He was elected Prelate on July 1st, and Vice Chancellor on Jan. 1,

1870. He took the Grand Lodge degrees August 9th, 1880, and was elected Grand Prelate August 11, 1885. On June 11, 1886, he was elected Grand Vice Chancellor and on June 9, 1887, Grand Chancellor. He received the unanimous vote of the Grand Lodge for both the Grand Vice

H. C. McMillen.

Chancellor and Grand Chancellor, and was elected Supreme Representative at the session of the Grand Lodge held in 1889 and attended the Supreme Grand Lodge of the United States at Milwaukee last year. Mr. McMillen is a charter member of Comstock Division No. 3, Uniform Rank Knights of Pythias, and has served as Sir Knight Recorder from its organization. Brother McMillen is a constant and zealous worker in the order, and the honors cast upon him have not been unworthily bestowed.

The attendance at the session is large and goes to show that the interest in the order is not lagging. The Knights promise to have an exceedingly interesting session, and the GAZETTE extends to each and every member, the right hand of good fellowship and bids them a hearty welcome to the Riverside town.

BREVITIES.

Local and General Intelligence. Reno is crowded with brave Knights to-day.

Don't forget the Fourth of July meeting to-night.

Reno berries and California cherries for sale by Berry & Nocaovich.

B. M. Coffin was this morning awarded the contract for painting the pavilion.

A. Rooker arrived last night with four carloads of horses from Elko, bound for San Francisco.

About one and a half tons of fish from the Pacific ocean went through by express to-day to Virginia City.

A rapid increase in the editorial fraternity is reported from Sacramento. Wells Drury has increased the staff of the News by an addition of two. See particulars under the head of "born."

No stronger, braver heart you'll find—'tis safe to say it flat—than his who can make up his mind to wear the first straw hat. But he buys it from John Sunderland and is always in style.

A fair trial of Hood's Sarsaparilla for scrofula, salt rheum, or any affection caused by impure blood, or low state of the system, will be sufficient to convince any one of the superior and peculiar curative powers of this medicine. Buy it of your druggist, 100 doses One Dollar.

The Justifiable Kind—Sir Peter—Well, who are you? Applicant—I'm the spirit of Jones. Sir Peter—You killed a man, didn't you? Applicant—Yes, I did—but he came up behind me and slapped me on the back and asked me what was the good word. Sir Peter—Buy it of John Sunderland and you bought your cigars from Marcus Fredrick.

PERSONALS.

Geo. Fraser of Pyramid is visiting Reno.

Geo. H. Morrison arrived this morning from San Francisco.

W. E. Sharon is visiting Reno and is registered at the Riverside.

Hon. Theo. Winters and wife are in Reno and guests at the Riverside.

W. H. M. Cobb returned from Sacramento this morning with his wife.

R. T. Hofer, Chief Clerk of the Carson Mint, is registered at the Riverside.

Alex. Wise of Winnemucca arrived last night and went to Candelaria this morning.

B. Gilman, Supt. of the Eureka & Palisade railroad was in town this morning.

Miss Addie Park of Verdi is in witnessing the commencement exercises of the State University.

N. A. Hummel came to Reno last night from his present home in Tulare, to get a breath of mountain air.

Wm. Gilbert of Gold Hill, Will U. Mackey, Home Yerington and Tim Dempsey of Carson arrived on the local to-day, and came as representatives of the Grand Lodge of K. of P.

Gazette Weather Service. The rain of last night measured seventeen-one hundredths of an inch. The barometer indicated the approach of this storm last Sunday, and the indications are still for more rain. It will be noticed that my prediction as to tornadoes is holding good, and that the action of the elements in that direction has gone out of its usual path.

A very great distance, by starting on the Pacific coast north of here and sending such a storm across the country as far east as the Rocky mountains, estimated it very highly as a token to do their share of the tornado work.

C. W. IRISH.

THE STATE UNIVERSITY.

An Interesting Meeting of the Regents Held Yesterday and Business Transacted.

A GAZETTE reporter accepted an invitation extended by Governor Colcord and Attorney-General Torreyson to attend a meeting of the State Board of Regents yesterday. As a good deal of the business transacted is of a nature that the public should be interested in, an account of the proceedings is here given. The new members of the Board, to wit: Governor Colcord, Attorney-General Torreyson and the Hon. J. W. Haines, were all present, and from the manner that they are taking hold of the work, shows the wisdom of the Legislature in making them members of the Board. General Torreyson's collegiate education peculiarly fits him for the position. He understands every branch of college life, the habits of students and the workings of the faculty so thoroughly that it makes him a most valuable member of the Board. Governor Colcord's practical knowledge of the affairs of life come into play, and any suggestion he makes is carefully listened to by the Regents. The Hon. J. W. Haines never speaks without he says something, and with an insight into the workings of the institution and practical knowledge of the business of the University that four years' experience has given Messrs. George and Fish, the State has a Board of Regents that is a full team and a horse to spare, and if under their management the University is not a success, it will not be their fault.

The Board allowed the following bills from the funds of the Agricultural Experiment Station: C. J. Brooks, supplies, \$3 50; Folsom & Wells, supplies, \$2 50; R. C. Moore, cash, paid for stamps, seeds, etc., \$21 45; George H. Taylor, salary as Secretary for May, \$35; A. H. Manning, supplies, \$27 35; S. A. Jones, salary as Director of the Station for May, \$75; R. H. McDonald, salary as agriculturist, \$150; Miss H. K. Clapp, salary as librarian, \$25; H. P. Brown, foreman, \$100; F. H. Hillman, botanist, \$150; J. W. Phillips, chemist, \$150; H. Manning, supplies, \$2 25; R. H. McDowell, beet seeds, \$6 35; R. J. Barnett, labor, \$15; Storo Sheriff, labor, \$8 70; Reno Lumber Co., lumber, \$9 11; W. E. Berry, janitor, \$30; W. O. H. Martin, supplies, \$9 90; May pay-roll for labor, \$177 93.

The following bills were allowed out of the Government college agricultural appropriation funds:

Emier & Amend, supplies, \$67 26; The Scientific Publishing Co., supplies \$11 97; Lieutenant J. M. Neal, salary as instructor, \$75; Whitall, Tatum & Co., chemical supplies, \$5 52; R. D. Jackson, salary as instructor, \$166 66; S. A. Jones, salary as President, \$103 66; W. McNeil Miller, salary, \$106 66; R. C. Moore, freight charges, \$24 67; John Taylor & Co., supplies, \$35; Robert Lewers, salary, \$100.

Bills allowed out of the State's appropriation in support of the University: J. C. Moore, freight and expressage, \$9 90; G. W. Lentz, labor, \$6 35; Reno Water Co., gas, \$28; J. F. Aitken, drayage, \$5; Mrs. Belle Kendall, washing, \$12; W. O. H. Martin, supplies, \$10 65; Reno GAZETTE, printing, \$18 76. State Journal, advertising, \$5; Nevada Tribune, advertising, \$5; Morning Appeal, advertising, \$5; C. J. Brooks, supplies, \$26; Samuel Durkee, labor, \$19 60; Thomas Buttery, labor, \$6 35; A. H. Manning, supplies, \$61 35.

The Regents have supplied H. Springmeyer, of Douglas county, with sugar beet seed enough to sow a half an acre of ground land and a half an acre of sugarbeet land to the sugar beet, and Mr. Springmeyer proposes to demonstrate the question of whether the sugar beet can be successfully cultivated in Douglas county or not. Farmers in other parts of the State have also been supplied with seed, and will test the soil and climate in other places.

The following resolutions were introduced and provoked a good deal of discussion pro and con, and finally were laid over to be amended by the President:

Resolved, That the Faculty of the University organize and be required to meet once in every two weeks during the term, for the purpose of discussing University matters; reporting the standing of students in the various branches of study, and for the purpose of making suggestions to the Regents of the entire work of the University.

Resolved, That the President of the University be required to deliver a lecture at least once a week for the purpose of the purpose of discussing University matters; reporting the standing of students in the various branches of study, and for the purpose of making suggestions to the Regents of the entire work of the University.

Resolved, That the President be required to visit each Professor in his department at least once a week for the purpose of making suggestions and directing the work, and that the Professors in the various departments make a report of such visit to the President, and he in return to the Regents.

We believe more of the English branches should be taught and less laboratory work done. That laboratory work should be discontinued, except for such students as desire a special course of instruction in some special branch requiring laboratory work, and to such students two afternoon's in each week shall be allotted.

We believe that more thorough supervision and a more strict discipline should be maintained, and the President is hereby authorized and instructed to exercise full power and authority in all matters coming under his control.

These resolutions shall take effect and be enforced on and after the beginning of the fall term.

The Board then took up the bids for constructing the laboratory building. They were as follows: Clough, \$7,434; Burke Bros., \$7,186; Holesworth, \$6,745; Curtis, \$6,400; and Walker, \$5,325. After much discussion the contract was finally awarded to I. J. Walker for \$5,325. Those voting to give it to Mr. Walker were Messrs. Colcord, Torreyson, Haines and George, Mr. Fish voting in the negative, for the reason that he did not believe the building could be put up for the money.

The Board then adjourned to meet this morning at 9 o'clock, when matters appertaining more particularly to the educational advances to be offered to students at the next term will be taken up.

Presentation. Yesterday the laboratory class in physiology at the State University, presented to Professor W. McNeil Miller, a solid silver paper center, on which was inscribed the following: "Laboratory Physiology Class 1890-1891." The Professor, needless to say, esteemed it very highly as a token from his class.

PALACE DRY GOODS HOUSE.

PALACE DRY GOODS AND CARPET HOUSE

STUPENDOUS REDUCTIONS

In Black and Colored Dress Goods

THIS WEEK! THIS WEEK!

OWING to the backward season, and the extraordinary magnitude of our GREAT SUMMER STOCK OF BLACK AND COLORED DRESS GOODS, we have subjected the vast array of elegant fabrics to a

OPPOSED TO BEDS
People Who Sleep on the Floor, in Chairs, or Standing Up.
Several persons, from some cause or other, have resolved from various periods not to sleep in bed. Perhaps the individual who kept to his resolution the longest, says Spare Moments, was Christopher Pettit, of York, who died in 1790, aged ninety-three. He was a carver and gilder by trade, but during the earlier part of his life served in the army. His house at York, after he had settled down, was accidentally burned down, and he therefore formed the singular resolution of never again sleeping in a bed, lest he should be burnt to death while asleep, or not have time, should such a misfortune again befall him, to remove his property. The resolution he rigidly kept for the last forty years of his life, his practice being to repose on the floor, or on two chairs, or sitting in a chair, but always with his clothes on. He lived entirely alone and was his own housekeeper, and seldom admitted anyone into his habitation. Among other articles which composed his home was a human skull, which he left strict injunctions should be interred with him.

A pedestrian named Ernest Mensen, who flourished in the third decade of this century and who once ran from Calcutta to Constantinople in fifty-nine days when employed as a courier, took very little rest and never slept in a bed when on his travels. He got short naps of only ten or fifteen minutes at a time each day, and when he could, and took them standing or leaning against a tree, with a handkerchief over his face. Only the other day a man on being charged with being declared that he had not slept in a bed for thirteen years, but took his night's rest in doorways and passages.

The Japanese never sleep in a bed, but the same spotless floor that answers for table, chairs and dancing stage is utilized also for sleeping purposes. They sleep in a great wadded coat, and putting their arms into the long sleeves, fold it over them and go to sleep upon the floor, with a block of wood placed under the neck for a pillow. Perhaps the strangest sleeping place was one discovered a few years ago, when the police of Budapest found thirty persons of both sexes lying in a dirty but warm stream of water that flowed out of a mill. The water was shallow, and the vagrants had got into it for warmth, taking stones for pillows.

THE PALACE
RENO'S LEADING HOTEL

For Infants and Children.
Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 South Oxford St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to affections of children."
ALEX. ROBERTSON, M. D.,
107 N. Ave., New York.

"From personal knowledge and observation I can say that Castoria is an excellent medicine for children, acting as a laxative and relieving the pent up bowels and general system very much. Many mothers have told me of its excellent effect upon their children."
DA. G. C. OSBORN,
Lowell, Mass.

THE CENTRAL CO., 77 Murray St., N. Y.
